

Save Time – Read Your Voicemail...

On your mobile phone, in your email, and online.

Save time and save your messages. CallWave Voicemail-To-Text gives you total control over the way you receive, respond to, and save your mobile voicemail messages.

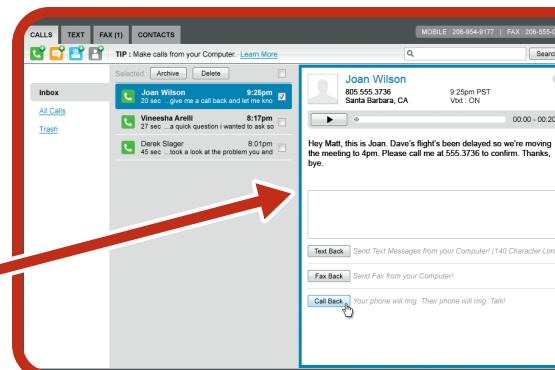

SMS - Read the summarized "GIST" of each message

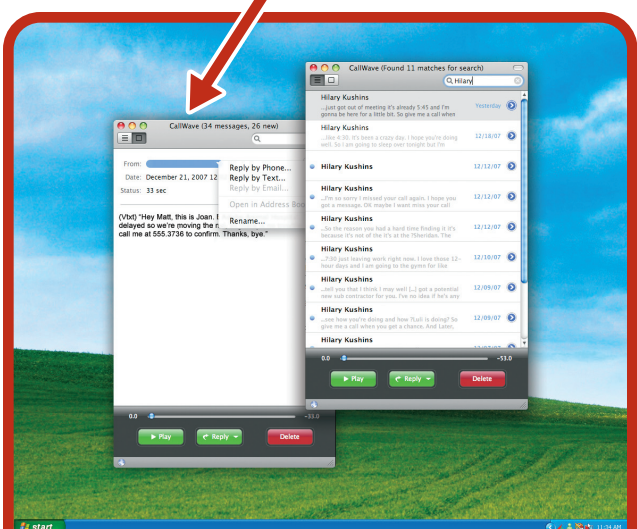

Email - Receive your mobile messages right in your inbox. Listen or read the full transcribed message.

"Hey Matt, this is Joan. Dave's flight's been delayed so we're moving the meeting to 4pm. Please call me at 555.3736 to confirm. Thanks, bye."

Online Message Center - Listen, read, respond and save your messages online.

Desktop - Screen your calls just like an answering machine. Read your message right from your Mac or PC desktop.
